## PROGRESS REPORTS (SUMMARIZE YOUR RECENT WORK)

=====

Gary - Created the notes for this meeting, updated the links on TeamSpeak for the last meeting, I have a post on Freeworlder.com offering a free pdf download or a paperback copy of "The Zeitgeist Movement Defined" and have been getting a request or two a week, usually for the free pdf. I still have about half a dozen new paperback copies to give away. Harry Cason of the NYC chapter has shared a 30 minute video with me of a program he is creating for public access television in NYC called, "A Better World is Possible". He is not ready to release it yet as it still needs some editing but it looks interesting.

David Dann and Woodpecker are currently working on updating the UK website, we have put together a task list of things which need doing and are currently working through them. Progress is being made!

UK: 8 people showed up at the book group on Saturday in London

Various minor updates to the TZM UK website

Finished editing Erik's talk from ZDay <https://youtu.be/-GR9BIeae0I>

I added some modifications to the Com Protocol, no significant changes though.

Changingtheworldiseasy.com has passed 10k visits. about 4 percent of them stay on the site for an hour or more, meaning that they probably are watching Zeitgeist Movint Forward on it. I will attend New Economy and Social Innovation forum this week with Colin Turner and hand out a Gift Society flyer to everyone there. People are starting to catch on about Project Snowball the DIY Transition Plan and apply it in the global-action thread in the discord server. I have united a dozen Gifter proactivists of southamerica with the spanish group (spanish TZM chapter) with telegram and whatsapp groups. We are going to hold the first monthly global spanish meeting this saturday on discord. Other new spanish speaking proactivists are using the general spanish sections in the discord server.

JuusoV - Finland

- We had national meetup (seven people attended) and a spring meeting of our NPO. First time we had an official meeting and we fixed some legal stuff mostly, created a budget and so on.

- Getting ready for joining an event with a 4x4m booth/tent.
  - We created a minds.com page and a group.
  - We'll be going to share more etc projects on our social media and making deciding what to share easier. I personally hope we are moving away from facebook.
  - On discord Clifford has been added as an admin and a moderator group (with Woodpecker, Teemu and Michael) has been created. So it isn't our chapter only anymore :)
- Gilbert: I contacted Peter about the broken links, and he said he will fix them. I provided him with a list of broken links + context and in specific cases reasons for removal, this was only a few days ago. If it is not fixed within a week i will follow up.
- Gilbert wrote this: Global situation: <https://docs.google.com/document/d/1BTTn4QYW80CTISAV1hPkyGJ-tm-Beo2uWy68BgwYiI4/edit> (limited subjects, if there is time)

## GENERAL NOTES (minutes)

=====

I think it is important to rotate responsibilities, I suggest we write a list of people who are willing to take that task regularly and at the end of each meeting one of them takes the task. Those willing to host TeamSpeak Meetings

Gary

Gilbert

Mark Enoch

David Dann

Those willing to host Discord Meetings

Mark Enoch

JuusoV

## Project DIYTP

The idea is to post micro-updates about our work raising awareness in the global-action thread in discord and add the hashtag #DIYTP (Do- It-Yourself Transition Plan for more information see [www.changingtheworldiseasy.com](http://www.changingtheworldiseasy.com) ) and #SowGiftSociety or #SowTZM . See the thread for more examples.

## SUMMARY

=====

A list of willing people has been taken (see general notes) and at the end of each meeting one will take it upon themselves to prepare then next meeting and see that it runs well. If that person finds out that they can't follow through then they are responsible to take on that task.
